

**Happy times!**

***“Great success”***

**iQuery**

**The new wave of Javascript**

# WHY?

**As a library it offers a unified way  
to interact with the document  
of Internet, the a web page**

# COST?

**In file size 20 KB**

**In implementation the need to learn**

**Additional plugins increase file size**

Name	Size
effects.js	32 KB
lightbox.js	23 KB
prototype.js	47 KB
scriptaculous.js	3 KB

102 KB My Computer

Name	Size
thickbox.css	4 KB
loadingAnimation.gif	6 KB
jquery-1.1.2.pack.js	21 KB
thickbox.js	11 KB
thickbox-compressed.js	6 KB
thickbox-packed.js	8 KB

53.3 KB My Computer

# **BENEFITS?**

**Semantic desing**

**Unobtrusive way of developing**

**Distance ourselves from repetition**

**Distance from browser differences**

**Getting to Web 2.0 (for sales purposes)**

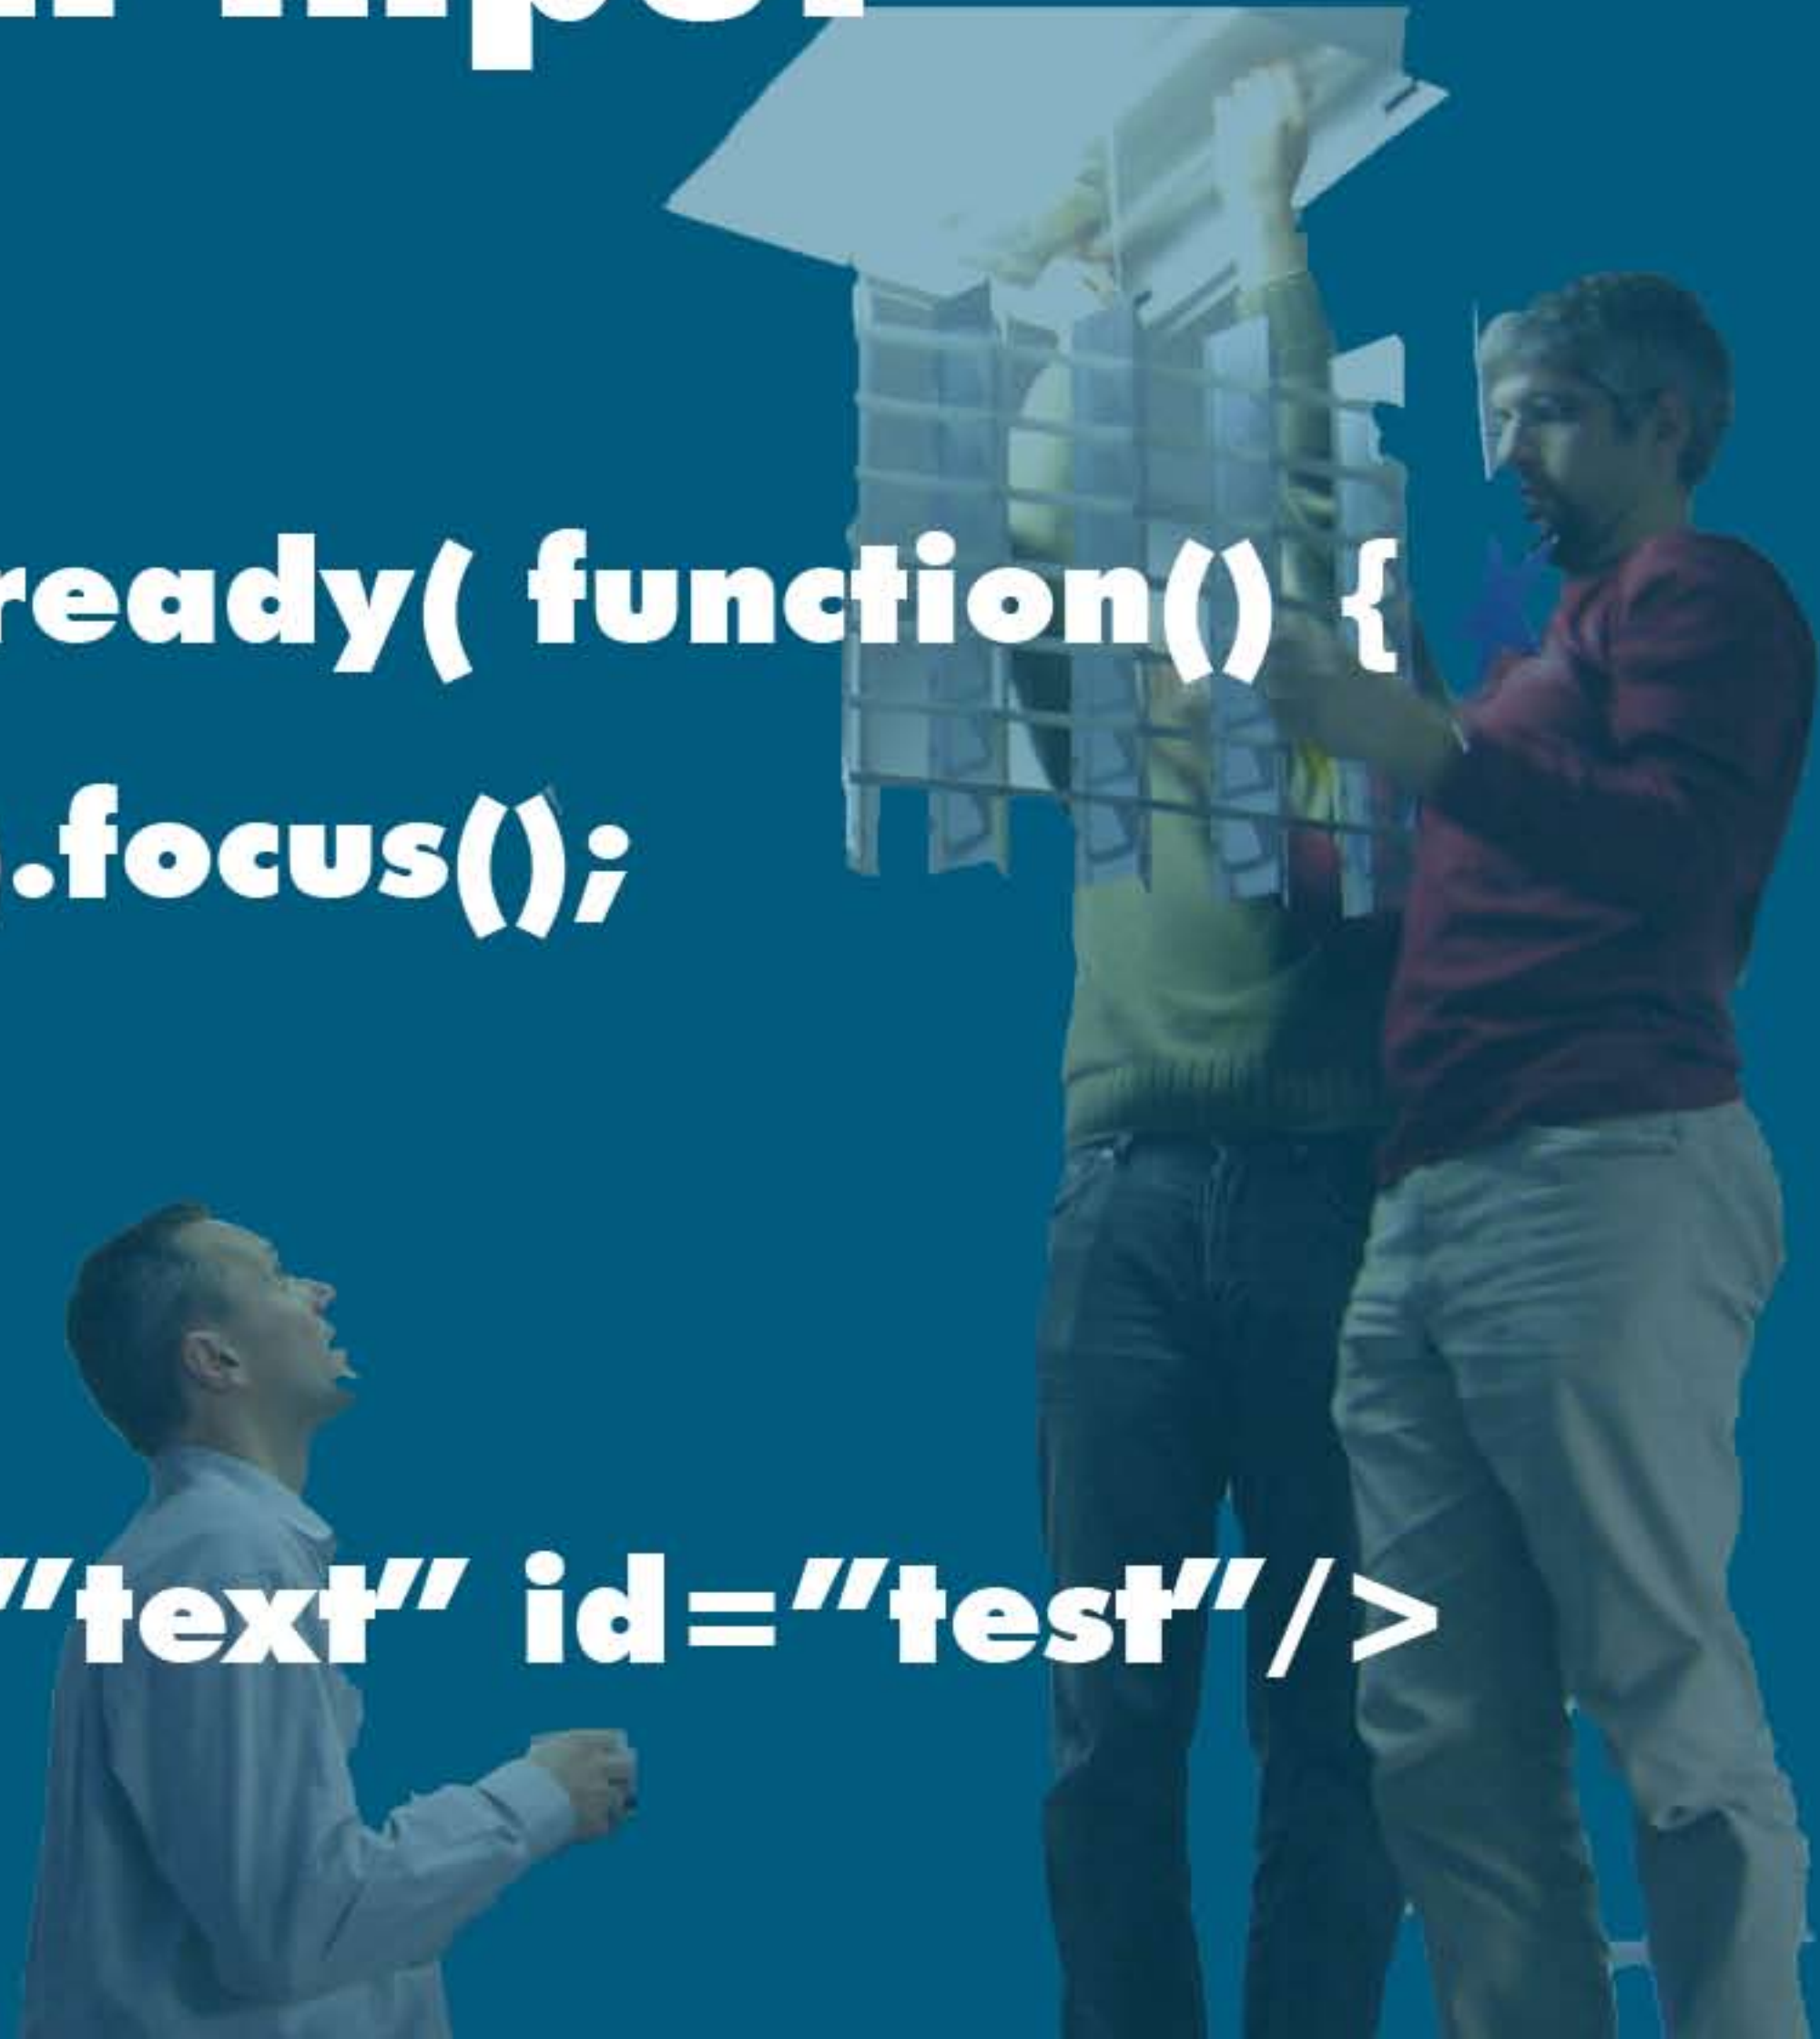

# Focusing an input

```
$(document).ready( function() {  
    $("#test").focus();  
});
```

```
<input type="text" id="test"/>
```

# EXAMPLES

A green cartoon character with a red cap and a person working on a machine. The character is on the left, looking down. The person is on the right, bent over a machine, working on it. The background is a solid green color.
