HARLEY STREET HEART & VASCULAR CENTRE
A MEMBER OF HMI MEDICAL

SINGAPORE
HEART & VASCULAR CARE

The Harley Street Heart & Vascular Centre

A group of cardiologists in Singapore and a member of HMI Medical, with clinics at Gleneagles (Napier Road), Mount Elizabeth Novena, Mount Elizabeth Orchard and HMI Medical Centre (Farrer Park).

> The Harley Street Heart & Vascular Centre (harleystreet.sg) helps patients with a wide range of heart and vascular conditions, from a general check-up to a treatment plan. Its heart clinic Singapore at HMI Medical Centre, Farrer Park, provides diagnostic, treatment and rehabilitation services for heart and vascular conditions, alongside three other clinic locations.

About the centre

According to the centre, it offers screening packages and management plans tailored to each patient's cardiovascular needs. Treatments listed by the centre include coronary angiography and intervention, implantation of cardiac pacemakers and devices, catheter ablation of cardiac arrhythmias and peripheral vascular intervention. Its specialists trained at centres in the United Kingdom, the United States, Canada and Australia. The centre also offers teleconsultations and provides continuity of care for international patients through a network of overseas medical partners.

A cardiologist, also called a heart specialist or heart doctor, diagnoses and treats conditions of the heart and blood vessels. The centre's cardiologist Singapore page introduces its team of four senior consultant cardiologists. Each heart specialist Singapore profile lists qualifications, subspecialty and clinical interests, and patients looking for a heart doctor Singapore can see them at Gleneagles, Mount Elizabeth Novena, Mount Elizabeth Orchard and Farrer Park.

The cardiologists

Dr Reginald Liew

Senior Consultant Cardiologist · MA (Camb), MBBS (Hons, London), PhD (Imperial College London), FRCP (UK), FESC, FACC, FAsCC, FAMS

Cardiac electrophysiology: heart rhythm disorders, catheter ablation (including pulsed field ablation for atrial fibrillation), pacemaker and ICD implantation, and cardiac resynchronisation therapy.

Dr Rohit Khurana

Senior Consultant Cardiologist · MA (Oxon), BMBCh (Oxon), PhD (London), FRCP (UK), FESC (Europe), FACC (USA)

General cardiology and coronary intervention, including coronary angioplasty and stenting with intravascular imaging; also manages resistant hypertension.

Dr Michael Ross MacDonald

Senior Consultant Cardiologist · MB ChB, BSc (Hons), FRCP (UK), MD (Research), FESC (Europe)

Heart failure, cardiac imaging (CT and MRI) and preventive cardiology; general cardiology and inherited heart conditions.

Dr Peter Ting

Senior Consultant Cardiologist · MBBS, MRCP (UK), MPH (Harvard), FACC, FAMS, GDip (Geri Med)

Preventive cardiology and cardiac rehabilitation, advanced echocardiography, valvular heart disease and geriatric cardiology.
